Replication Instructions

The files in this folder contain replication data for "Moral Support: How Moral Values Shape Foreign Policy Attitudes." There are 3 files:

1. MoralValues.dta: the full replication dataset.
2. Moral Values Replication 1.R: contains the code to replicate the results from the manuscript.
3. Moral Values Replication 2.R: contains the code to replicate the results from the supplementary appendix.

The variables and scales are described in the manuscript and appendix. If you have questions or encounter any difficulties in replicating the results or getting them to run, please let us know.
